

Fireplaces: we created A-Fire, invent Your design Fireplace!

A-FIRE: Because your fireplace is unique !

Install quickly and simply Your fire-space

The fire has always fascinated the imaginations of people; he has been living with the humanity since its origins. Nowadays, in an increasingly urban environment, the use of fireplaces becomes complicated, with great limitations.

A-FIRE offers you a means of reviving the pleasure of the fire by creating Your vent free fireplace. An "urbanized" fire, easy to install and easy to use, a design ventless hearth created according to your taste which you can use daily. The fire becomes modern and without constraint, it is more flexible and it can be adapted more easily to the exigencies of your decoration. Better, it becomes an element of decoration.

AFIRE offers you two possible solutions to create Your direct-vent fireplace:

- You can use one of our models of ventless fireplaces "ready-to-install "
- You can create your own design and insert one of our ethanol burner "ready to embed"

Fireplaces: we created A-Fire, invent Your design Fireplace!

Because the best way of inventing is to surprise !

In fact, what is the most annoying in the installation of a fireplace, it is the implementation of a chimney flue. Very often this operation is impossible or it is so difficult, annoying and expensive that we give up the installation of your hearth.

A-FIRE offers you the opportunity to create **YOUR flueless design fireplace** in a very simple way. Modern fireplaces with real flames that you can install very quickly, in the city as in the countryside, as well in a house, in an apartment or commercial premises. An eco-friendly ventless fireplace which is easy-to-install and easy-to-use. A device which you can use every day, simply by pressing on the remote control..

1. BL range: Bio ethanol burners the heart of your fireplace
2. BX, BC range: Bio ethanol burners very large size and design burners to create exceptional fire-spaces
3. Secure and remote controlled design ethanol fireplaces
4. A-Fire manufacturer

Fireplaces: we created A-Fire, invent Your design Fireplace!

1. BL Remote controlled bio ethanol burners to embed, the heart of your fireplace

Technical data's range: all our ethanol burners are CE approved and endowed of

- Remote control and on/off button on the top plate and automatic ignition ordered by electrodes
- Safety detectors which stop the device in case of malfunction (CO², heat, gauges, etc.)

BL 40 Compact ethanol burner

- Dimensions: 40,5 / 24 / 11,3 cm (15,94 / 9,45 / 4,45 in)
- Output: 2 700 W (9 000 BTU)
- Capacity of the tank: 2,25 L (0,6 Gal)
- Consumption: 0,4 liter/hour (0,11 Gal/hour)
- Weight: 8,5 kg (18,74 Lbs.)

BEG59 Fireplace burner: same technical data's than BL40

- Dimensions: 59 / 31 / 15 cm (23,22 / 12,20 / 5,90 in)

BL 66 Large ethanol burner

- Dimensions: 66,5 / 24 / 11,3 cm (26,18 / 9,45 / 4,45 in)
- Output: 3 750 W (13 000 BTU)
- Capacity of the tank: 4 L (1,06 Gal)
- Consumption: 0,60 liter/hour (0,16 Gal/hour)
- Weight: 14 kg (30,86 Lbs.)

BL100 Extra-large ethanol burner

- Dimensions: 100 / 24 / 12,3 cm (39,37 / 9,45 / 4,84 in)
- Output: 6 200 W (21 000 BTU)
- Capacity of the tank: 5 L (1,32 Gal)
- Consumption: 1 liter/hour (0,26 Gal/hour)
- Weight: 20 kg (44,09 Lbs.)

Fireplaces: we created A-Fire, invent Your design Fireplace!

2. BX Bio ethanol burners very large size to create exceptional fireplaces

Technical data's range : all our ethanol burners are CE approved and endowed of

- **Remote control** and on/off button. Automatic ignition ordered by electrodes
- Safety detectors which stop the device in case of malfunction (CO², heat, gauges, etc.)

BX120 ethanol burner

- Dimensions: 120 / 24 / 21,3 cm (47,24 / 9,39 / 8,38 in)
- Output: 7 500 W (25 500 BTU)
- Capacity of the tank: 12 L (3,16Gal)
- Consumption: 1,2 liter/hour (0,32 Gal/hour)
- Weight: 34 kg (66 Lbs.)

BX150 ethanol burner

- Dimensions: 150 / 24 / 21,3 cm (59,06 / 9,39 / 8,38 in)
- Output: 10 000 W (34 000 BTU)
- Capacity of the tank: 15 L (4 Gal)
- Consumption: 1,65 liter/hour (0,44 Gal/hour)
- Weight: 38 kg (75 Lbs.)

BX180 "The longest ethanol burner of the world"

- Dimensions: 182 / 24 / 21,3 cm (71,65 / 9,39 / 8,38 in)
- Output: 12 400 W (42 000 BTU)
- Capacity of the tank: 18 L (4,75 Gal)
- Consumption: 2 liters/hour (0,53 Gal/hour)
- Weight: 42 kg (94 Lbs.)

BC50 Square ethanol burner

- Dimensions: 50 / 50 / 21,3 cm (19,69 / 19,69 / 8,39 in)
- Output: 8 100 W (27 000 BTU)
- Consumption: 1,3 L/h (0,34 Gal/h)
- Weight: 19kg (42 Lbs). Tank capacity: 12 L (3,16 Gallons)

Fireplaces: we created A-Fire, invent Your design Fireplace!

3. A trendy remote controlled ethanol fireplaces collection

Technical data's range: all our ethanol fireplaces are CE approved and endowed of

- Remote control and on/off button on the top plate. Automatic ignition ordered by electrodes
- Safety detectors which stop the device in case of malfunction (CO², heat, gauges, etc.)

Beaubourg: BE100 16/9 fireplace

- Dimensions: 96 / 59 / 27,3 cm (37,80 / 23,23 / 10,75 in)
- Output: 3 750 W (13 000 BTU)
- Capacity of the tank: 4L (1,06 Gal)
- Consumption: 0,6 liter/hour (0,16 Gal/hour)
- Weight: 42 kg, (92,4 Lbs.)

Beaubourg: BE150 XL 16/9 fireplace

- Dimensions: 146 / 61,4 / 27,3 cm (57,2 / 24,2 / 10,75 in)
- Output: 6 200 W (21 000 BTU)
- Capacity of the tank: 5L (1,32 Gal)
- Consumption: 1 liter/hour (0,25 Gal/hour)
- Weight: 62 kg, (138 Lbs.)

Bastille: compact fireplace

- Dimensions: 76 / 76 / 27,3 cm (29,92 / 29,92 / 10,75 in)
- Output: 2 700 W (9 000 BTU)
- Capacity of the tank: 2,25L (0,60 Gal)
- Consumption: 0,4 L/hour (0,11 Gal/hour)
- Weight: 42 kg, (92,4 Lbs.)

Concorde: 360° fireplace

- Dimensions: 109 / 99 / 45 cm (46,85 / 38,98 / 17,72 in)
- Output: 3 750 W (13 000 BTU)
- Capacity of the tank: 4 L (1,06 Gal)
- Consumption: 0,6 L / hour (0,16 Gal / hour)
- Weight: 50 kg (110 Lbs.)

Fireplaces: we created A-Fire, invent Your design Fireplace!

Burners & fireplaces manufacturer

A ethanol burners manufacturer better A-Fire manufacturer

A-FIRE manufacturer invent a new discipline, a new art-of fire where art design and technology, intersect, in order to offer you truly new fire-spaces. Research and development, production, quality control, everything is made in our premises. A manufacturing of fireplaces and bioethanol burners between craft and industry, a “know-how” dedicated to the safety and design down to the last detail.

To invent the universe of the fire is designers’ business

With the arrival of the new constraint-free and flueless inserts to embed, the creators discover infinite possibilities of designs with the fire. The fireplace is not any more an object of decoration, a vestige of the past, but indeed a functional design fireplace which is going to take new forms to merge, to sublimate or to be the essential element of a living area
